3/2-way solenoid valve normally closed (MD) or normally open (MOD), with air spring, actuated by permanent signal.

Available with solenoid operators 24 V = or 230 V ~.

Valves are generally equipped with manual override to push.

Type	Function	Width [mm]	Port size 1 and 2	Air flow [l/min]	Operating pressure	Power consumption
MD 310 301	n.c.	15	M5	280	3-10 bar	1.9 W / 3.6 VA
